CONSULTATION

All hair color prices are based on an in-salon consultation according to the itemized HeadMapping® color service menu.

COLOR LIGHT DESCRIPTIONS

1/3 Panel -
Creates a color accent only around the fringe area and is great on short hair.

1/2 Panel -
Creates color accents that add a bit more color to the front top of the head. Ideal for short hair.

Full Panel -
Creates color accents that add even more color to the front and back top of the head. Covers the top of the head and is ideal for short and one length hair.

1/3 Panel Division A -
Creates color accents around the whole face and the front part of the top of the head. Great for medium length textured hair that cascades towards the face.

1/2 Panel AB -
Creates color accents around the face, sides, and more of the back part of the head. This service is also popular and ideal for short, medium and long hair.

Full Panel Division A -
Creates color accents around the face, sides, front and back part of the head. The most popular service for maintaining highlights. The service is great for medium to long hair.

Full Panel Division AB -
Creates color accents over all the head, except for the nape area. This service is great on long layered hair and helps cover difficult cowlicks in back of head.

Full Panel Division AC -
Creates color accents in the front and back top of the head, sides and nape area. Ideal partial highlight service for long hair that is put up in a high ponytail or hairclip.

Full Panel Division ABC -
Creates color accents all over the head. Ideal for the fine hair that needs body, also great for short layered styles.
